Clause 28

The Brookside lesbian kiss

Oranges are not the only fruit

Martina's Coming Out

Our lives as lesbian and bisexual women are shaped by images of who we are in wider society whether in TV, film or politics to name only a few.

During the weekend we will explore through discussion, arts and crafts, silence and being together how these happenings help us to negotiate our own turning points and personal development and the place of faith in that process.

Facilitators: Alison Webster and Janice Price

Alison Webster has been exploring these issues for a very long time. She has written a few books and spoken at several conferences (including the LGCM Lesbian weekend in 1996 where she met Janice). Since then their dialogue has never stopped... and will continue on this weekend with another brilliant group of LEFT women.
